PLC-XP41/L

XGA Portable Multimedia Projector

IMPRESSIVE 3300 ANSI LUMENS OF BRIGHTNESS

A 275W NSH lamp combined with Sanyo's new optical system delivers an impressive 3300 ANSI lumens of brightness.

INTELLIGENT DIGITAL SHARPNESS CONTROL

This high-performance image processing technology analyzes the incoming signal and controls the sharpness of picture data only, while text and other elements that are already sharp are left unprocessed.

ECO MODE FOR INCREASED LAMP LIFE

The PLC-XP41/L features a new Eco mode which switches the lamp ballast power from 275 watts to 220 watts, increasing lamp life while decreasing the brightness level approximately 20%.

3D DIGITAL PROGRESSIVE CIRCUIT

3D sampling for each pixel along with SANYO's unique movement detection algorithm program lead to increased vertical and diagonal resolution on moving video images.

NETWORK CONNECTIVITY

Sanyo's new optional PJ-Net Organizer system allows for operation and administration of a projector via a network. Presentations can be run, projector status can be checked, and projector functions can be controlled through a web browser. An alarm and notification can be automatically sent via E-mail whenever the projector encounters a problem, allowing the administrator to act quickly to resolve the issue.

HDTV COMPATIBLE

The SANYO PLC-XP41/L is High Definition Television Compatible, accepting the 1080i, 1035i, 720p, 575p, 575i, 480p and 480i HDTV resolution standards.

DIGITAL KEYSTONE CORRECTION

SANYO's new X-Y digital keystone correction feature compensates for angled projector placement by digitally altering the pixels to produce undistorted images both horizontally and vertically.

WHISPER QUIET FAN

The PLC-XP41/L employs a new Whisper Quiet fan producing an amazingly low noise level of only 35 dBA (Eco mode).
